

# **Sprint 2 Report**

## **Project: TRVRL**

### **Team: Team21**

Usman Zahid,  
Jyotsna Prakash,  
Marvin Corro

March 16, 2016

### **What things should we stop doing?**

In retrospect, we should have met more often. I (Usman) did not get as much work completed as I should have. Keeping accountability as a main facet of our team would have been more beneficial. Too much of the load was put on Marvin and Jyotsna in the earlier sprints. Trying to get the work completed on time as well would have been a bigger issue to try to implement.

### **What should we start doing?**

Finishing tasks a team. Finish the website before the final presentation demonstration. Meet up as necessary to get the task done and reach out to resource (online or TA). Doing more research on how web2py, Ajax, jQuery work independently and not lean so much on class or others to teach us these technologies.

### **What is working well that we should continue to do?**

Getting the tasks completed as they have been broken down. Meeting up more often and reaching out when stuck on particular problems. Keeping a line of communication viable as we all have very difficult schedules.

### **What work was completed, and not completed?**

We got a lot of things completed:

1. (Hard) As a user I want to create "itineraries" of places I am going to travel too
2. (Medium) As a user I want to be able to see other peoples "itineraries"
3. (Medium) As a user I want to be able to follow other users to keep up to date with there trips

## **NOT COMPLETED**

1. (Harder) As a user I want to be able to supply user content by adding destinations of places  
**FROM SPRINT 1**

## **What is our rate of completing work?**

Check burn up chart in folder....
